The ONN frequently receives emails from individuals looking for a stitching group. While directing someone to the details about meetings is helpful, it is best to be able to provide them with a group contact to speak with before a meeting. Please include that information below. It will only be put on the website if the group contact is comfortable doing so. Otherwise, information for the person who is inquiring will be sent by the ONN to the group contact for follow-up.

Meeting information **to be included on the ONN website:**

The ONN is an information sharing network. Our mandate is:

- **To encourage communication among guilds and groups of needleworkers.**
- **To share information about available resources: teachers, speakers, suppliers, etc.**
- **To have an awareness of travelling instructors, to coordinate visits and share costs on some ventures.**
- **To exchange information on current and upcoming fibre events: shows to visit, calls for entry, etc.**
- **To help raise the profile of needlework to the general public.**

Please attach or email information about workshops, exhibitions, programs, etc. as soon as it becomes available. Details can be added as plans are firmed up. Even if there will not be space for members beyond your group, others may decide to piggy-back on an instructor's travel, plan a similar event, ask your member-instructor to come to their group, etc.

Please include or send at a later date, as details become available, information such as:
